Re: Important Health Immunization Information

Attention Parents of Sixth Grade Students

Any student entering 7th grade in 2018-2019 is required to have proof of immunization for a Tdap vaccine and a Meningitis vaccine. I have reviewed the records of all current 6th grade students. If their immunization records are up to date they will be notified and do not need the vaccines.

Please check with your child's healthcare provider as to whether your student needs the vaccines or not. Please send an up to date shot record that reflects the above listed vaccines to school by **September 17, 2018**.

Records may be faxed to school at 330-898-7808.

Attention Parents of Eleventh Grade Students

Any student entering 12th grade in the 2018-2019 school year is required to have proof a meningitis booster or an initial meningitis vaccine.

- The second (booster) dose must be given on or after the student's 16th birthday.
- If the first vaccine was given after the 16th birthday, a second dose is **NOT** required.

I have reviewed all records of our current 11th grade students. If their shot record is up to date they will be notified and do not need the vaccines.

Please check with your child's healthcare provider to determine if your child needs the vaccines or not. Please send a copy of the up to date shot record to school by **September 17, 2018**.

Records may be faxed to school at 330-898-7808.

Thank you,

Mrs. Harper
School Nurse
