RE: LaBrae High School PE Waiver Information

Dear Parent,

As you may already be aware, students will have the choice to exempt the physical education (PE) graduation requirement if they complete two full seasons of interscholastic athletics (including cheerleading) or marching band at LaBrae High School. Students who choose this option will not receive academic credit for the exemption, but instead they will have the opportunity to add an elective in place of the PE requirement.

In order to complete the exemption, a parent/guardian signature and student signature must be on file in the high school guidance office. If your student chooses to exempt the PE requirement, please sign below and return to the LaBrae High School Guidance Office with your **child’s signed scheduling sheet**.

All 8th graders will be mass scheduled into PE for the 2016-2017 school year. The course will not be removed until a signed exemption form is returned. If the signed form is not returned, we will assume your student will complete the PE requirement during the school year.

When your student completes a schedule in February they will need to indicate on their scheduling sheets whether they plan on completing the PE requirement during the school year or through the exemption. If they indicated they would complete the course through the exemption, another elective will be added in place of PE. However, as previously mentioned, **the PE course will stay on your student’s schedule until the exemption form is completed and turned in.**

Please contact the LHS guidance department with additional questions.

Respectfully,

Jeff Starkey
